WELCOME / BIENVENIDOS

The Hispanic Heritage Council of Western New York, Inc. is a nonprofit organization that exists to foster and inspire awareness, understanding, and appreciation of past, present, and future contributions of the Hispanic Community in Western New York.

BOARD MEMBERS

Meet our new board Directors, these community volunteers are part of all the HHC programming throughout the year. Our diverse team will be a great addition to our community leaders of Western New York.

Jose Luis Perez

I am Venezuelan, and I have more than 20 years of living in the United States, specifically in Buffalo, NY. I have been working at Buffalo State College as a Spanish teacher. I decided to become a member of HHC because this organization has been working with the Hispanic community, and I have the firm intention of helping to grow and educate our people.

Karol Melendez

My heritage is from the small town of Arroyo, PR, I am an Administrative Coordinator for Highmark BlueCross BlueShield of WNY. HHC has inspired me to become more involved in the community's cultural diversity, to understand, and be aware of the needs of our community.

Kelly Hernandez

I was born in Colombia, and I'm a proud immigrant. My mom migrated to the US when I was 12 years old, and she worked hard to provide a better future for my brothers and I here in Buffalo. I am a firm believer "Que si se puede". I am a Community Relations Specialist for Fidelis Care. HHC offers hope for a better future in our WNY Latino community. I joined HHC because I want to help by making a difference, and work on creating growth opportunities for our young people.

The Hispanic Heritage Cultural Institute, envisioned for the city's West Side, is poised to be an important resource not just for Buffalo's Hispanic community but for the entire WNY community. This institute will be the only one of its kind outside of New York City and will serve as a place for gathering, celebration and learning rooted in a rich cultural history. Western New York is home to over 75,000 Hispanics, and at a time when equity, inclusion and diversity are being prioritized more than ever, it would be particularly meaningful for Government, Business, Corporations, Private and Public institutions to put its financial support behind this important resource that will allow this community to celebrate and share its heritage through cultural & historic workshops, art exhibitions, creative performance & presentations, musical expression & storytelling, experiential learning labs, and civic engagement.

For the past fifteen months we have experienced a very challenging time, with project delays as a result of the COVID-19 Pandemic our project schedule has been modified to extend its time line well into 2024. We have made huge progress on many fronts. Working with our consultants we have been able to complete the project business and sustainability plan, acquire land and site control, Phase I & Phase II environmental study, in the coming months our efforts will focus on the Capital Campaign raising the much needed funds to build our \$10 million dollar green energy state of the art facility. GUITAR INITIATIVE

We're thrilled to announce our new HHC Guitar Initiative classes for the Fall 2021! This Fall we'll be offering two exciting programs: our very own **Guitar Classes**, and our new project, the **Recycled Instrument Building Workshop**.

a. Our Guitar Class pays special emphasis in community. Students in the class receive the best formal music education, taught by experienced professional musicians and educators. Classes will meet twice a week for a 90mins applied guitar class, and a 60 min music appreciation class where they'll learn about music theory, history, and will listen to local musicians perform for them. This class is for children ages 10-13, no prior music experience needed.

b. Our Recycled Instrument Workshop teaches all stages of building musical instruments using recycled materials while learning also how to play them. Throughout the semester, our students build instruments representative of each one of the musical families (Strings, Wind, Brass and Percussion). This is a unique experience that converges music education with STEM education. This class is for children ages 10-12, and it'll meet once a week for a 2hrs class. Enrollment for both classes will open on July 15 and classes will begin on September 13. All classes will be held at the Isaías González-Soto Public Library. All classes are entirely free, we'll provide all necessary materials, including guitars, books, and building materials. Classes will be in person, following CDC's safety recommendations and Erie County Public Library's policies to ensure a safe environment for our students and instructors. For more information about these programs please contact Dr. Ricardo Saeb at hhc.guitar@gmail.com
